

BCSG Apparatus Championships 2023

Results are below . Please read following explanation to fully understand them!

It is a new format for us and we think it worked really well.

LEVEL is the level each gymnast competed at. The levels start at 10 and work up to 1.

VAULT/BARS/BEAM/FLOOR/H'BAR/P'BARS is the score for the apparatus competed - not all gymnasts did all 4 pieces!

SV is the value of the gymnast's work at the competition and is built using competition requirements and values of elements.

MAX SV is the absolute maximum a gymnast can score at that level on that apparatus if everything is absolutely perfect.

% age is the percentage that the gymnast actually scored in relation to the maximum they could score.

RANK is the gymnast's final position based on their percentage score NOT their performance score.

AA RANK is the gymnast's final All Around position. To qualify for AA placing, all 4 apparatus need to have been competed.

Note about judging - 'big' skills look great, but if a gymnast bends their legs, separates their legs when they shouldn't be, bends their arms and also lacks height, flight, body extension where it is required they will lose big marks - anything up to a whole mark! Yes, a gymnast may have a fall (or 2) but still have good quality work and therefore score higher than 'bigger' skills performed not so well.

Congratulations to all of our winners.
